

LASALA

PLAZA
HOTEL

THE BUILDING

A completely renovated 1917 building that preserves the architectural style of the facades of the time to enjoy a trip back in time.

Endowed with a renovated classic French style, it keeps alive the elegant atmosphere of the city that at the end of the 19th century became one of the fashionable destinations among royalty and high society travelers.

PRIVILEGED LOCATION

We are located in a prime spot at the meeting point of the fishing port, the bay, and the old town, in a small, quiet square that gives the hotel its name.

In the square stands the bronze lion that once adorned the city's most important public fountain, a symbol of the town.

** Access for large vehicles is restricted in the area. We recommend using a private vehicle or minibus.*
